

Elective Options Instructions

Congratulations on your progress toward your High School Diploma!
It's time for you to select your electives to fulfill your graduation requirements.

It's easy — here's all that you do:

- 1** Select your elective subjects on the Elective Options Form. To be eligible to take academic math electives, such as Algebra I, you must pass General Math I, Consumer Math, and General Math II. **Your electives must add up to five credits.**
- 2** Number the electives you have chosen in your order of preference (with one being the most preferred). If you are entitled to transfer credits for previous high school courses, you will receive only the elective courses needed to achieve five credits. These will be chosen in the order of your preference. Please make your selections carefully. Note, once your electives are added to your study record, a fee will be charged if you wish to change any of your elective choices. The fee is \$10.00 per elective credit if the study materials have not been shipped. If you decide to change your elective after the materials have been shipped, the fee is \$40.00 per elective credit.
- 3** **Type or print your name, address, and student number in the space provided on the Elective Options Form.**
- 4** Return the entire form to **Penn Foster High School, 925 Oak Street, Scranton, PA 18515-0002** or fax to **570.961.4888**.

That's all there is to it — you'll be one step closer to your High School Diploma.

Choose your electives online, or mail the entire form today!

Elective Options Form

Please complete and mail this form.

Name	Student Number	
4F, 6-82 OTAMACHI, NAKA-KU		
Street Address		
YOKOHAMA	KANAGAWA	231-0011, JAPAN
City	State	Zip Code

Select elective subjects totaling FIVE UNITS OF CREDIT. You may choose your electives from any of the categories below.

If a subject has a prerequisite listed, the prerequisite subject must be included in your elective selections.
